

IASSIDD Academy Workshops

Part of IASSIDD's Europe Congress

In English. Please note that there will not be translation into Greek

Tuesday July 17th 2018 9:30-4:30 pm

The Building of Rectorate, Panepistimiou Str 30, ATHENS 10679

1: An Integrated approach to health and wellbeing of people with intellectual developmental disabilities The Theotokos Project (9.30am-12.30pm Dr Yannis Papanostadinou, V. Arsenopoulou, M.A Widdershoven, K.Katsouda)

The workshop will discuss an innovative approach to the health and wellbeing of people with IDD across the lifespan. It will reference the European funded programme ABLE and will

2: Recent Advances in the diagnosis and management of Autism in routine care (9.30am-12.30pm Drs Caroline Richards & Evi Tagkouli)

The workshop will 1. Discuss findings from diagnostic services and 2. Present evidence for current approaches to the management of mental disorders in people with ASD across the lifespan along the biopsychosocial continuum. 3. It will bring together experience of practitioners of

3: Understanding Down syndrome (9.30am-12.30pm Prof Angela Hassiotis)

Down syndrome (DS) is the commonest reason for intellectual disability. Our understanding of DS has increased in the past decade. The workshop will present information on 1. Memory services for people with DS; 2. Treatment of dementia in DS and 3. How to support families with a child or adult with DS.

4: Mental illness in people with intellectual disabilities (13.30-16.30pm Prof Angela Hassiotis)

Diagnostic overshadowing has often prevented people with ID from getting the help they need for a mental disorder. This essential workshop will present information about current knowledge of prevalence rates of mental illness in people with IDD and through interactive case studies will enable participants to reflect on diagnostic dilemmas in

**5: Sexuality-Enabling Rights and Choices
(13.30-16.30pm Drs Ian Hall & Niall O’Kane)**

This dynamic workshop teaches us ways to enhance the sexual rights and choices of people with intellectual disabilities. You will learn ways to begin talking about sexuality, understand that changing community and family acceptance is essential to enabling sexual rights of people with disabilities. This is a workshop that is essential for all disability professionals and family members.

**6: Parent support and ID
(13.30-16.30pm Drs Robert Hock & Sarah Dababnah)**

Having a child with ID can be both inspiring and a challenge. Parents of children with ID are one of the most underserved in society. The workshop will discuss current approaches
